Super-large format printing. Our Agfa large-format inkjet printers can print up to 1,524mm wide by any length. For convenience we also offer standard 'A' size posters (A2, A1 and A0).

Dye-based or solvent-based inks. For internal use, we can use less expensive dye-based inks for your prints. Where your print will be exposed to sunlight we recommend the use of solvent-based inks which are resistant to the bleaching effect of UV light.

For ease of displaying A2, A1 and A0 prints outdoors see our range of [weatherproof 'A' boards](#). For internal display you may be interested in our [poster snaps](#).

Choice of substrates (materials). We have a variety of materials for all kinds of applications:

- 170gsm (grams per square metre) photorealistic silk or gloss paper;
- 180gsm photorealistic matt with gloss lamination;
- Wet strength paper;
- Backlit film for lightboxes;
- Pressure-sensitive vinyl;
- Cling film for windows and similar glass surfaces;
- Banner vinyl with optional brass eyelets and ropes.

We are happy to advise on the most suitable and cost-effective material for your application — please call our **Freephone Design Advice Line on 0800 077 6467**.

Pricing illustrations

Please remember that our prices are **fully inclusive** of professional advice to help you prepare your file for printing, pre-press checks, PDF proofs and printing. The only charges to add are for delivery and [VAT, where applicable](#). **We never add 'hidden extras' and we stand by that principle 100%.**

The prices shown here are based on multiple prints of a single file.
